From just 10 people in Sept/Oct 2013, to a monthly average of 75 people, to a weekly average of 125 people. Each week we review the numbers from the previous week and then try to figure out where we should direct our energies to increase numbers in the coming week. A typical (or average) week will include the following: One to three (3-8) new people who started attending in mid-week A handful of people returning from last week who come back to the group We get two coffees, two lunches, one dinner, etc. which are sold to cover the cost of the room rental. We had just under \$30 in sales on a typical day (about \$40 per person). Last week we had a few people who didn't show up (only one) and one who needed some very explicit reminders to attend. TOTAL: \$34.20 Last week we had some interesting outcomes: 82157476af
