IT HAS JOJO REFERENCE IN IT !!!

On a serious note if you want a fun and entertaining read with some light drama (usually happens at the end of each route) - this VN is perfect for you.. Personally, i'd like not better graphics, but for the low graphics to have a higher impact. In my knowledge i dont think this should be to hard. Otherwise its great, play it with my friend all the time.. Really Cool Game. For my first impression of the game, I would say this is a very casual game. I am one to rage quite often but this was pretty fun to play. It is a classic hack and slash game which you embark on this adventure to save your friends! Below are my pros and cons of the game:

Pros:

- Fun, good way to pass time
- Easy, does not induce great amounts of rage
- It makes me look like I a gaming lord
- Didn't encounter any bugs. Gameplay was smooth
- Classic hack and slash
- Great pricing point

Cons:

- May be a little too easy
- Little challenge was saw
- Controls seem to only be for controller
- Combat can be a bit mindless. More button mashing that combos

Gameplay if you fancy it:

<https://www.youtube.com/watch?v=ZpPLTwyo6Dw>. Fun. Interesting. Challenging. Frustrating. Satisfying. Everything you'd want in a puzzle game. :)

[No tutorial, but you learn as you go.. I have only tried one other editor and that was the Sony Vega and as well as this being cheeper \(waaaay cheeper\) it also was esier as well as has a few features i like. now i am not saying its the best of the best but for quality for the price this is the editor of any new youtubers dream. as well as for youtube im also able to record just the screen so it comes in handy as something to fiddle with.. An enjoyable short noir visual novel similar to The Detail but with magical/voodoo elements. This game would have been better priced at half of what it costs now.. There's just something about this RPG Maker that seems to make it better than the newer ones.. Any game that'll get you to marathon through it in one 6-hour play session is pretty great. This is a really fun little indie title that I got about 90% completion \(there are some hidden rooms\) in the 6 hours that I played today... and I'll probably go back for the last 10%, too :\)](#)

---

I returned it because the realism is lost in the physics. It's a fun game, and cheaper than most model airplanes. If you're buying this to replace flying the real thing, you will be dissapointed. If you haven't flown the real thing this would be a good place to start.. Box Breaking Simulator. 10V10. Just about the most ridiculous game I have ever seen. Well worth the 10 bucks it's going for now.. Instantaneous purchase.. game is fun and can be a pain in the♥♥♥♥♥to beat. A fun arena FPS game that recaptures not just the feeling of playing N64 shooters like GoldenEye, but the feeling of tweaking the settings and playing in very specific game modes, in this case with the "explosives only" weapon set.

The game's only weapons are different types of throwable explosives. On top of that, there are plenty of game mode variations like fast motion and invisibility. The game has a colorful, low-poly/sprite-texture aesthetic that looks great. I haven't gotten the chance to play a multiplayer game yet, but the single player campaign has plenty of fun to offer. It's styled after Mario 64, with a hub-world full of doors that you unlock with collectables. You get more collectibles by returning to levels to play with different variations and win conditions. The levels themselves are varied and creative, and keep the game interesting with things like destructable floors and underground passages.

Definitely worth checking out if you miss the days of N64 party games.
